

Edwardsville Public Library: Download E-Books

iPad / iPhone

- The **OverDrive Media Console app** for iPad is available in the App Store. Download the Free app.
- OverDrive's app for iPad gives users wireless access to their library's EPUB eBook and MP3 audio book catalog without a PC. (*Login into wireless network if at a public location*).
- Find “Edwardsville Public Library” using the app's "**Get Books**" feature. You can search by zip code.
- Choose “Lewis & Clark Digital Consortium” Library system, then browse for titles. *To see only titles “available” click the Search icon in the green bar and then “x” the small box under search bar. You can also access “My Account” from this page to keep track of your items checked out, items on hold, etc.)*
- When you find a title you want, click “Add to Cart” (or “Place a Hold” if already checked out – you will be notified by email when it is available). You can choose either the Adobe ePub format or Kindle format (**NOTE: if you choose Kindle format, you must have an existing Kindle account and download a free Kindle reader app onto your iPad first**).
- You may “Continue Browsing” to add more titles, or “Proceed to Checkout” if you are done searching.
- You will be asked to login. Find Edwardsville Public Library in the drop-down menu. Log into your Edwardsville Library account with your library card barcode (no spaces) and 4-digit pin (*if you need a pin, contact the Library at 692-7556*).
- Choose “Lending Period” if you’d like to edit number of days, then click “Confirm Checkout.”
- “Download” **each** item separately. (*Adobe ePub formats can be opened and read immediately. Kindle formats will be re-directed to the Amazon website for further downloading.*)
- The eBook and audio book titles from the library **automatically expire** in the app.
- **To Return an eBook early**, go to your “Bookshelf” and click the “Edit” button at the top/left. A RED circle will appear next to each title – touch the circle and a red “Delete” button will appear on the right side of the title. Touch “Delete” and you will have the option to “**Return and Delete**” item. *This comes in handy since if you have reached your 5-item limit and would like to check out a new ebook before the old one is due. Audio Books CANNOT be returned early.*
