

Getting Started: Searches

Welcome to your new library catalog!

To search the catalog, type a keyword, an author, a title—whatever you're looking for—and click Search. Your search results will show each title in all its available formats. No more sifting through result pages to find a format—it's all right here!

If the status shows "On Shelf," you can find it in *your* library right now. If it's not there, click "Quick Copy View" to see where it is. Available copies will show up in green, bold text. Otherwise, you can place a hold to have an item delivered to your preferred location.
